

# Comprehensive Subrogation & Recovery Solutions

## Maximize Your Recoveries with Precision and Expertise

At Veritas, we understand the challenges of subrogation management. From handling complex, high-value claims to tackling backlogged files, we're here to support claims managers looking to enhance recovery rates and streamline workflows. Combined with our other claims handling services we can provide a complete claims solution from appraisal to recovery.

### Subrogation Services

- ✓ Our team handles the entire subrogation process independently, freeing your team to focus on high-priority tasks while we maximize recoveries.
- ✓ Each client is assigned a Subrogation and Recovery Specialist with in-depth industry knowledge to ensure your unique needs are met.
- ✓ Specialized in high-value claims, including those involving trucking, towing expenses, multi-party liability, ride share clients, and electric vehicles (EVs).
- ✓ Our experts are skilled in presenting strong, accurate demands backed by detailed documentation, allowing us to negotiate effectively and secure optimal recoveries.
- ✓ Processes tailored to address backlogged claims, including closed files, maximizing recovery potential even when documentation may be challenging.

## Why Choose Veritas?

### Handling Caseloads & Backlogs

A streamlined workflow that maximizes recovery on current and backlogged claims.

### Consistent, Quality Results

Veritas consistently delivers specialized support for high-value, complex cases.

### Adverse Carrier Negotiation

Our experts push back effectively and present well-supported demands.

### Proven Recovery Success

Our team is dedicated to securing the maximum possible recovery for each case.
